• INTRODUCTION

Shanghai Institute of Precision Medicine (SHIPM) is established in August 2016 to align with the goal of developing Shanghai into a science innovation center. SHIPM belongs to Shanghai Jiao Tong University School of Medicine and is affiliated with Shanghai 9th People's Hospital. Dr. Ming Lei, one of "Thousand Talent Program for Outstanding Scientists", is the Executive Director of SHIPM. As a subsidiary institute to Shanghai Jiao Tong University School of Medicine, SHIPM has built its scientific research team dedicated to promoting the precision prevention, diagnosis and therapy against severe chronic diseases threatening human health, such as cancer, metabolic diseases, neurodegenerative diseases, cardiovascular diseases, etc., by orchestrating the power of the basic and translational research to address questions in life science. SHIPM has established six cutting-edge research facilities in the fields of Protein Engineering, Mass Spectroscopy, Electron Microscopy, Bio-imaging, Chemical Biology and Bioinformatics. In an effort to become a precision medicine research hub with global influence, SHIPM is conducting extensive international cooperation and students exchange activities with Harvard Medical School, Yale Medical School and the University of Michigan.

• LEADERSHIP

Director WU Hao / 吴皓

Professor, Shanghai Jiao Tong University School of Medicine
President, Shanghai Ninth People's Hospital, Shanghai Jiao Tong University School of Medicine
Director, Ear Institute, Shanghai Jiao Tong University School of Medicine
Chair, Department of Otolaryngology Head and Neck Surgery, Shanghai Jiao Tong University School of Medicine

Executive Director LEI Ming / 雷鸣

Professor, Shanghai Jiao Tong University School of Medicine
Scholarship of Thousand Talents Program
The National Science Fund for Distinguished Young Scholars Council Member,
Asia Pacific Protein Association Executive Editor, Science Bulletin

• RESEARCH FIELDS

	<i>Reproductive Medicine & Chromatin</i>
	<i>Regenerative Medicine & Development</i>
	<i>Cancer Medicine & Epigenetics</i>
	<i>Osteopathic medicine & Synthetic Biology</i>
	<i>Molecular Pathology & Targeted Medicines</i>
	<i>Otology / Ophthalmology & Brain Science</i>

• OUR RESEARCH TEAM

Dr. BIAN Qian

Ph.D., Professor, Principal Investigator
Research Focus: 3D Genome Architecture, Epigenetics, Ageing

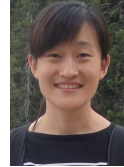

Dr. CAO Yu

Professor, Principal InvestigatorScholarship, National Thousand Youth Talents Program
Research Focus: Metabolic process within membrane; drug discovery

Dr. HUA Yunfeng

Professor, Principal Investigator
Research Focus: Study neuronal circuit ultrastructural basis of auditory brain function and diseases

Dr. HUANG Jing

Professor, Principal InvestigatorScholarship, National Thousand Youth Talents Program
Research Focus: Epigenetics and Cancer Biology

Dr. LEI Ming

Executive Director, Professor, Principal Investigator Scholarship, National Thousand Talents Program
Research Focus: Telomere and chromosomal stability; chromatin structure and cancer

Dr. WU Jian

Professor, co-Principal Investigator
Research Focus: Telomere and chromosomal stability; chromatin structure and cancer

• OUR FACILITY

SHIPM has established six cutting-edge research facilities in the fields of Protein Engineering, Mass Spectrometry, Electron Microscopy, Bio-imaging, Chemical Biology and Bioinformatics.
